

## MEET HEATHER WRIGHT....

And...

Learn why the Advance Peak Performance programme can be life changing.

If your company or organisation is looking for a management programme that inspires, educates and impacts immediately, then don't miss this opportunity to find out Why and How!

The East Lancashire Chamber of Commerce delivered the first Advance Peak Performance programme in August. Past delegates said:

To be absolutely honest I thought another "motivational" course was the last thing I really needed. I could not have been more wrong. I would have absolutely no hesitation whatsoever in recommending this program to any business or individual. I have no doubt that the front end investment would yield a strikingly positive return in terms of your most important asset - the people that are your business" *Phil Smith, MDA Limited*

I am delighted that the Chamber is able to offer such excellent material at a value for money rate. I know that my colleague and I really gained a great deal from the two dates and feel that the material is already changing our daily lives. *Stephen M Anderson, PM&M LLP*

Advance is a training consultancy working with companies in the areas of Leadership, Behaviour, Culture, Vision & Values, Managing Change, Team Dynamics and Performance Improvement in Sales & Customer Excellence. They concentrate our message on self-motivation, overcoming personal barriers and focusing on strengths that make each individual an extraordinary player within a team of different people.
